

| GHG EMISSIONS PER PROVINCE/TERRITORY |             |
|--------------------------------------|-------------|
| Alberta                              | 48%         |
| Ontario                              | 19%         |
| Saskatchewan                         | 9%          |
| Quebec                               | 8%          |
| British Columbia                     | 6%          |
| Nova Scotia                          | 4%          |
| New Brunswick                        | 3%          |
| Newfoundland and Labrador            | 2%          |
| Manitoba                             | 1%          |
| Territories                          | 0.28%       |
| Prince Edward Island                 | 0.02%       |
| <b>TOTAL</b>                         | <b>100%</b> |

**Energy industries ranked from most to least GHG emissions in Canada:**

1. Oil
2. Natural gas
3. Coal
4. Solar
5. Biomass
6. Nuclear
7. Hydroelectricity
8. Wind

### ÉMISSIONS DES GES PAR PROVINCE/TERRITOIRE

|                         |             |
|-------------------------|-------------|
| Alberta                 | 48%         |
| Ontario                 | 19%         |
| Saskatchewan            | 9%          |
| Québec                  | 8%          |
| Colombie-Britannique    | 6%          |
| Nouvelle-Écosse         | 4%          |
| Nouveau-Brunswick       | 3%          |
| Terre-Neuve-et-Labrador | 2%          |
| Manitoba                | 1%          |
| Territoires             | 0,28%       |
| Île-du-Prince-Édouard   | 0,02%       |
| <b>TOTAL</b>            | <b>100%</b> |

Industries de l'énergie,  
par ordre décroissant  
des émissions de GES  
au Canada :

1. Pétrole
2. Gaz naturel
3. Charbon
4. Solaire
5. Biomasse
6. Nucléaire
7. Hydroélectricité
8. Éolienne
