CHILD CARE CENTER COMPLAINT

The determination of this complaint was made based upon employee interviews. I discussed this allegation with staff and the center Director.

1. 109.12(1) Program structure that uses developmentally appropriate practices and written program of activities planned to the developmental needs of children served. Program complements but does not duplicate school curriculum. Schedule of program is posted in a place visible to parents.

109.4(2)c Curriculum or program structure developmentally appropriate and activities designed to the developmental level/needs of children served.

During interviews on 4/24/19, 4/25/19, 4/26/19 and 4/29/19 Korissa H., Hayley E., Nicole L., Ashley K., all reported inconsistencies with curriculum and that it wasn't utilized daily on a consistent basis the past year or more. Staff members reported the center rarely followed written program of activities planned to meet child needs. Staff have described the center as chaotic and "fly by the seat of our pants". Staff reported oftentimes they "make it up as they go".

Professional development is often required to enable staff to develop proficiency in the development and implementation of a curriculum that they use to carry out daily activities appropriately. Planning ensures that some thought goes into indoor and outdoor programming for children. A written plan is a tool for monitoring and accountability. Also, a written plan is a tool for staff and parent/guardian orientation. Early childhood expertise is necessary to guide the curriculum and opportunities for children in programs.

Facilities should have a written comprehensive and coordinated planned program of daily activities appropriate for groups of children at each stage of early childhood. This plan should be based on a statement of principles for the facility and each child's individual development. The objective of the program of daily activities should be to foster incremental developmental progress in a healthy and safe environment, and the program should be flexible to capture the interests and individual abilities of the children.

Staff reported curriculum was utilized at times but not consistently. Curriculum provides structure and direction. Specific educational and learning goals should be identified and followed to foster development in this critical time for child development. Sarah T. reports Jolly Phonics is used daily at the preschool site. Sarah T. denies curriculum was not being utilized, however staff report differently. The Director is responsible to ensure all programs are utilizing curriculum daily. VIOLATION

Special Notes and Action Required:

*Note: If you are the Child Care Center Director and you feel something is unclear or unjustly cited, please contact me (phone 641-684-3951; email jseiber@dhs.state.ia.us) so that we may discuss the issue.
