AVAILABILITY OF LOGOS

These logos can be downloaded at www.rollandinc.com under Attributes and Certifications.

This certification logo from Forest Stewardship Council® attests the chain-of-custody of the paper, taking into account all transformation steps, right up to the last one, namely, the printing. Thus, only the printer's logo may appear on a printed document. Only FSC-certified printers may use the FSC label.

These logos may only be used by the manufacturer, but the Ancient Forest Friendly™ certification may be included in a statement such as the one suggested above according to the product. This does not apply to the Rainforest Alliance certification.
