

NOTICE OF PROJECT COMMENCEMENT WEST DEANE PARK BANK STABILIZATION

Toronto and Region Conservation Authority (TRCA), in partnership with the City of Toronto, is preparing to undertake bank stabilization and minor trail re-alignment works at two sites (**Site 1** and **Site 2**) in West Deane Park, south of Eglinton Avenue West to protect the multi-use trail and municipal infrastructure from further watercourse erosion.

Work is scheduled to begin in early 2017, pending receipt of all necessary permits and approvals. The work, including asphalt repairs and restoration plantings, is anticipated to be completed in the spring.

For your safety, please obey all posted construction signs and stay clear of work areas and equipment.

Access to/from Antioch Drive to the multi-use trail south of the work area will be kept open; however, the section of trail within the work area will be closed for the duration of the work. The parking lot off Antioch Drive remains closed and will be used for construction activities.

We apologize for the inconvenience and thank you for your cooperation!
