

NOTICE OF INTENT

GERMAN MILLS SETTLERS PARK SANITARY INFRASTRUCTURE PROTECTION PROJECT

Toronto and Region Conservation Authority (TRCA) is working in partnership with the Regional Municipality of York to undertake sanitary infrastructure protection works at multiple sites within German Mills Settlers Park. The project sites are located along an estimated 260 metre stretch of German Mills Creek, running north-south between John Street and Steeles Avenue East, in the City of Markham.

This project consists of identifying channel stabilization and major channel realignment options that will provide long-term protection for infrastructure, while preserving and enhancing the ecological health and integrity of German Mills Creek. As such, a Municipal Class Environmental Assessment for Water and Wastewater Projects – “Schedule B” is being utilized as part of the planning and design process for this project. This process includes public and stakeholder consultation, evaluation of design alternatives, and identification of measures to mitigate any adverse impacts.

A public information meeting will be held on **Tuesday, May 29, 2018 at 6 p.m.** at the following location:

**Thornhill Community Centre Library Meeting Room
7755 Bayview Avenue
Thornhill, Ontario L3T 4P1**

In the interim, if you have any additional inquiries or are interested in receiving further information related to this project, please contact the Project Manager by one of the methods below:

Phil Wolfram, Project Manager I
Engineering Projects, Restoration & Infrastructure
9755 Canada Company Avenue
Vaughan, Ontario L4H 0A3
Phone: (416) 661 6600 ext 5522
Email: pwolfram@trca.on.ca

TRCA intends to proceed with this project pending the receipt of all necessary funding and approvals.
